## Top News

Annual Prevention Providers Meeting: Highlite from Austin (pg.2)

Coalition Activities: Training & Education in the community (pg.2)

## Full Steam Ahead!!!

Summer has begun and our coalition has been hard at work to push the mission forward. We have many exciting things coming for Wichita County. Everything we do is "for a better Wichita"

This newsletter will act as one of the ways to keep members and partners aware of what efforts are being conducted to achieve a better Wichita for all.

## APPM

During the first week of June, we were able to attend the Texas Annual Prevention Providers Meeting. Each year, Preventionists from all over Texas come together for a week of collaboration, education, and relaxation. Through workshops focused on different areas of substance use, preventionists are able to learn so they go back to their respective communities to make change.

## Inside The Work

- We were able to partner with Grace Church of Iowa Park TX and be a part of a men's retreat in which we were able to provide alternative activities, incentives, and education to help with the positive behavioral health in these mens lives.

---

- We are also excited to be starting a data media campaign in the next month that will educate Wichita County about substance issues in the community. This campaign will be a pivotal piece in continuing to move the coalitions mission forward

## Member Spotlight

Ryan Graves is a dedicated employee of our local United Regional Health Care System. His innovative thinking along with his passionate drive are the perfect combination that helps our coalition be effective in reaching the community in which we serve. We are thankful to have Ryan on board.
